Preparing today for tomorrow

- For the cleaning and maintenance of all wood surfaces
- Suitable for toys
- Replenishes grease
- Certified by IBR

Product info

Container: 750 ml spray
Available in natural and white

Application area

Natural Soap is ideal for the cleaning of oiled, waxed and soaped surfaces. Natural Soap is a purpose-made quality-soap, which due to its nourishing properties quickly closes the pores of the wood. This causes a good protection of the surface against dirt and liquids. Natural Soap White is used for white oiled surfaces, whereas Natural Soap Natural is used for surfaces which have been treated with Oil Natural or Colour Oil. The ready mixed spray facilitates the maintenance of oiled furniture, doors, table tops, panels, stairs, floors etc.

Result

The cleaning with Natural Soap removes dirt and provides the wood with a protective finish and has therefore both cleaning and nourishing properties. Natural Soap is therefore ideal for the basic treatment of pine floors if a treatment with soap is preferred to one with oil.

Application

Apply a cloth.

After care

Not required.

Maintenance and cleaning

With each cleaning process dirt and old soap layers are removed and replaced by a new protective soap layer.

How to do...

- WOCA Natural Soap: Cleaning of oiled, waxed and soaped surfaces

Preparing today for tomorrow

Tools

Soft lint-free cotton cloths.

Clean tools with water and soap.

Natural Soap is ideal for cleaning and maintenance of oiled, waxed and natural soaped surfaces. Natural Soap is a purpose-made quality soap, which due to its nourishing properties quickly closes the pores of the wood and protects against dirt and penetration of liquids. Natural Soap 'White' is recommended for surfaces treated with white oil, while Natural Soap 'Natural' is ideal for surfaces treated with natural or colour oil. The ready-mixed Spray makes the maintaining of oiled furniture, doors, table tops, panels, stairs, floors etc. easier.

- 1 Shake the spray well before use.
- 2 Spray the Natural Soap on the surface.
- 3 Wipe the surface with a cotton cloth.

Tip: very dirty stains can be cleaned with the WOCA Spot Remover or WOCA Wood Cleaner.
